Art Unit: 2135

#### **DETAILED ACTION**

1. This office action is in reply to an amendment filed on February 23, 2007. Claims 1, 13 and 14 have been amended and claims 6-12 have been canceled. Claims 1-5 and 13-14 are pending.

# Response to Arguments

2. Applicant's arguments with respect to claims 1-5, 13 and 14 have been considered but are most in view of the new ground(s) of rejection.

## Claim Objections

3. Claims 1, 13 and 14 are objected to because of the following informalities: claims 1, 13 and 14 recite 'said participants is', which has a grammatical error. Appropriate correction is required.

### Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 5. Claims 1-3, 5, 13 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Derocher et al. US 2003/0097449 A1 (hereinafter Derocher).

Application/Control Number: 10/640,607

Art Unit: 2135

6. As per claims 1, 13 and 14, Derocher teaches a management apparatus in a communication system having an access point to connect electronic devices operated by participants who participate in a conference, comprising:

discriminating means for discriminating whether or not said participants is an organizer of the conference, based on authentication information used by said electronic devices to carry out an authentication procedure (i.e., initial set up of a conference by an organizer wherein, the organizer is required to enter security level and password) [see figure 4 and page 2, paragraphs 0026-0028]; and

restricting means for setting functional restrictions on the electronic devices operated by said participants according to the discrimination by said discriminating means (i.e., based on security level restriction of access to electronic devices) [paragraphs 0026-0028].

- 7. As per claims 2, Derocher further teaches the apparatus wherein said electronic devices are connected to said access point by means of Bluetooth, and said discriminating means discriminates statuses of said participants based on the PIN code used for authentication between said electronic devices and access point [paragraphs 0017 and 0026-0028].
- 8. As per claim 3, Derocher further teaches the apparatus wherein said discriminating means discriminates the organizer of the conference from participants other than said organizer, and said management apparatus has an operation restriction table for setting restrictions on operations of said organizer and said participants [paragraphs 0026-0028].

Application/Control Number: 10/640,607

Art Unit: 2135

9. As per claim 5, Derocher further teaches the apparatus wherein the management apparatus comprises an IP address table creation unit which assigns IP addresses to said electronic devices and at the same time creates an IP address table [paragraph 0026].

#### Allowable Subject Matter

10. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
